Brand New Book ***** Print on Demand *****.Learn about eating foods from sustainable, permaculture-based sources that heal not only the consumer, but the planet as well. Make your own nut milks, kefir, yogurt, sprouts, fruit/vegetable chips, and delicious options for vegan/vegetarian, sugar-free, and gluten-free recipes! Happy Tummy makes staying healthy easy with tips on how to get phytonutrients, a built-in grocery list, and recommended food proportions. You will not only get delicious healthy recipes for every meal, but the tools your family need to learn the art of cooking for a lifetime of wellness. When I moved away to go to school, I realized I'd been watching Mom cook my whole life, and had no idea how to do it myself! I quickly tired of microwave Indian food and raw veggies and started calling her almost on a daily basis asking how she did this and how she cooked that. That was ten years ago, and I still call her almost daily, only now it's with our tablet cameras on while we exchange flavor ideas in a creative virtual cook-off! Meanwhile she went from Soil Scientist, studying what makes the dirt our food comes from healthy, to becoming an herbalist that treats her patients with nutrition, herbs and spices. And, I received my Doctorate of Chiropractic and Master's of Oriental Medicine. Together we have studied many facets of healthy eating and hope to provide a cookbook that not just gives you recipes, but actually teaches the reader how to create food, that not only tastes good, but feels good too. Because a Happy Tummy is a Happy Body! Here's to your health! Marcia Rhiannon, Mother-Daughter.
