DOWNSTREAM PROCESSING OF PROTEINS: METHODS AND PROTOCOLS

Humana Press. Hardcover. Book Condition: New. Hardcover. 229 pages. Dimensions: 9.3in. x 6.3in. x 0.9in. Considerable effort and time is allocated to introducing cell culture and fermentation technology to undergraduate students in academia, generally through a range of courses in industrial biotechnology and related disciplines. Similarly, a large number of textbooks are available to describe the applications of these technologies in industry. However, there has been a general lack of appreciation of the significant developments in downstream processing and isolation...
