Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Journal of Hellenic Studies, Vol. 23 The collection of elegiac poems which bears the name of Theognis offers one of the most interesting problems in the literary history of Greece, and, in spite of many tentative solutions, it must be admitted that the origin and composition of this anthology still remain a mystery. We know that the Theognidea include poems composed by Tyrtaeus, Mimnermus, and Solon, and it is therefore by no means unlikely that they also include a great number of other elegies that can no longer be traced to their proper sources. As the object of the following article is to discuss a few points connected with the poet's life and political surroundings, we must first of all discover some test which will enable us to distinguish the genuine poems of Theognis from those of other poets represented in the collection. We can safely assume that Theognis is the author of all the elegies in Book I. which contain the name of Cynrus, the young noble to whom the poet addressed so many of his didactic and political poems.
