paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 460 Publisher: People's Pub. Date :2011-3-1. Narrow and general relativity. quantum mechanics and quantum field theory. fractal geometry and system dynamics. self-organizing theory of modern natural science theories of contemporary philosophical problems of the century problems. Deep generative theory - the realm of the new philosophy of natural science (fine) written by the Lu goods more profound analysis of the paradox and the nature of the crisis. shows deep in these new scientific achievements in the realm of philosophy. so that these profound understanding of fundamental scientific achievements have been. Also develop and enrich the practical materialism of Marx's ontology - deep generative theory. the core idea is: an isolated physical entity itself does not exist; the world and all things space. properties in the internal relations of things in the generation. The inherent uncertainty of the quantum world and the level of development of structure; understanding of the process is not like the original - mirror 'of the corresponding process. but in practice between subject and object within each other to generate and display processes for the relevant reader reference. Contents: Preface to create a new realm of human thought and contemporary science and scientific thought of the first crisis and its philosophical roots of the first chapter the philosophical foundation of classical physics and the crisis of a crisis in two old materialism and physics the speed of light paradox: the material and the space-time confusion between three ultraviolet divergent: interacting material confused Chapter asked root of the crisis: the inherent paradox of an old old materialist ontological paradox: the moment of death and regeneration of the world's two classical physics: force and energy the..
