Harbour Publishing. Paperback. Book Condition: new. BRAND NEW, Marine Mammals of the Pacific Northwest: A Concise and Comprehensive Waterproof Guide, Pieter Arend Folkens, The Pacific Ocean off the west coast of North America -- ranging from the south coast of Alaska to the Equator -- encompasses many marine environments, from warm tropics to cold temperate waters, and from the shallow continental shelf to deep ocean canyons. A diverse number of marine mammals have adapted characteristics to survive and prosper in each of these environments. Beaked and sperm whales spend their time in the deep ocean. Most dolphin species favour warmer waters, while a few prefer cooler climates. Porpoises avoid the tropics altogether. Harbour seals stay near the temperate coast, as do sea otters. The guide depicts all fifty species of living marine mammals known to inhabit these waters, including the smallest (the sea otter, from the order Carnivora) and the largest (the blue whale, from the Mysticeti suborder of Cetacea). Here, featured in beautiful, full colour illustrations and photos, are all the whales you are likely to see in BC and the Pacific Northwest -- from humpbacks, greysand orcas, to bottlenose dolphins and Dall's porpoises -- as well as sea lions and five species of seals. This three-fold handy pocket guide also includes a habitat key, identification tips, marine mammal-watching guidelines and an illustrated glossary of common visible behaviours of marine mammals in the wild.
